

O, my sweetest dear

O, my sweetest dear
Come near
I have got to give you a little kiss
To my little miss
On her lovely forehead
To make her feel loved

O, my cutest dear
Don't fear
I'll always be here
Through highs and lows
And everything shows
That all will be alright

My little cutie
It's my duty
To point out your beauty
For you are blind
Cause your silly little mind
Won't let you see your shine
And you don't trust the word of mine
But it is fine
Because I love you

My precious baby
Just maybe
Put away the blades
I know you feel bad
But it makes me sad
And it drives me mad
That I can't protect you

My little lady
It's scary how you treat yourself
I know you're smart
You got love in your heart
But from the start
There only ever was love for me
Never for you

My silly little goose
Please, don't use the nuse
Or you'll find eternal snooze
In a world without me
Don't leave me alone
With an empty throne
And a void in my soul
That will never be whole
Again, without you
My adorable princess
What is that mess

Everything stained red
Next to your bed
Where you bled
Where you fled
From the dread
Inside your head
That led
You to shred
Your skin

For you to stop I pled
But you said
I wish I was dead

O, my sweetest dear
Come near
I fear
To lose you
But you are still here
For now

I'm shedding tears
That in years
I'll have forgotten your face
That I so much praise
Never to stay
Just to play
And then one day, go away
Never to be seen again

My future wife
I want you in my life
So put down that knife
And take my hand
Together we shall stand
Ruling a land
A great nation
Of our own creation
With godly divination
Where I am yours and you are mine
And everything will be fine
Because I love you

Don't fear
I'll always be here
Year for year
For O, my sweetest dear <3
